XII. SYMPOSIUM ON ACUTE CARDIOLOGY DIVISION OF EMERGENCY MEDICINE – CHARITÉ

CHAIRS / SPEAKERS

Dear Colleagues,

the XII. Symposium on acute cardiology and emergency medicine will be held as "CHARITÉ meets TURKEY" addressing the actual challenges after a long period of extraordinary circumstances with COVID-19.

Again, we collaborate with the cardiovascular branch of Vivantes, the Berlin community hospital chain.

COVID-19 hit the world and various health care systems performed differently. There was a boost for digital health solutions including telemedical approaches and digital support.

We will try to learn and understand lessons from the Turkish health care system, which is quite different from the German one. In the light of a "Delta-wave", we hope to contribute some "how to do" messages from prevention to complication management. As always, the use of biomarkers and recent guideline updates are part of the program.

We hope to see you online or in person at this event!
